

CHURCHES REACHING PEOPLE

This theme drives all we do within the Midwest District. All our efforts seek to cast the vision that as a fellowship of congregations we are challenged by our Lord to touch the lives of people outside the walls of our churches. We believe this is in keeping with item eight in the EFCA Statement of Faith and is consistent with the national mission of "Multiplying Healthy Churches Among All People".

Position Announcement

The Midwest District of the EFCA has been greatly blessed by Bill Smith as our District Superintendent. With Bill's announcement that he will be stepping down effective December 2012, we are seeking the man of God's choosing to lead us in the days ahead. As a district made up of more than 100 churches seeking to reach people for Jesus Christ we desire to see individual churches be equipped to reach their individual Jerusalem in growing effectiveness. Together we will partner to launch new church plants in rural and urban settings, among diverse ethnic groups, and even around the world. We believe it is a great day to be fully engaged in serving the Lord and request your help in finding God's man to lead us in this effort.

Please take a moment to consider who that man ought to be. If you are interested in the position of District Superintendent or if you know someone we should contact for the position, please communicate that by using the link on this page.
